## THE LIEN LAW.

The principal public question in South Carolina today, is the repeal of the lien law. It will come before the general assembly in a little while, and there be threshed over thoroughly. It is our judgment that the lien law will be repealed at the coming session, and whether it should be we are in doubt, and will yet have to be convinced that it is for the country's best interest; of one thing we are convinced, and that is, the prevailing idea that the repeal of the lien law will force better labor conditions, is a mistake, we do not believe anything of the kind, but on the contrary we believe it will force up the price of wages to where the ordinary farmer will not be able to secure labor at all. We also believe the repeal of the lien law, will ultimately prove a burden to the land owner, causing his lands to lay idle for the lack of tenants, or where he secures tenants, his lands will be mortgaged to secure supplies for those tenants. We believe further the repeal of the lien law without giving at least two years time, will bankrupt a large percentage of merchants and farmers who have been doing an extensive advancing business.

The writer will have a vote on this question, and of course, in a large measure he must exercise his own judgment, but in a matter of this kind, he realizes that he represents the people and their wishes he respects, therefore he gives his individual views in advance of the assembling of the legislature that his constituents may know what thinks along this line, and if they disagree with him, it is up to them to make their wishes known that he may not misrepresent them by his vote. Therefore it is urged that on Monday December 2nd, a representative attendance be at the public mass meeting called for the purpose of discussing this and other questions.

When we speak of a representative attendance, we do not mean men who just happen at the meeting, but men who come from different sections for the purpose of attending and letting it be known the sentiment in their respective communities.

## ARE WE DEMOCRATS OR PROHIBITIONISTS?

The prohibition wave continues going on, and unless some change comes it would not surprise us in the least to wake up and find the machinery of the Democratic party of the solid south delivered over to the National prohibition party. Will South Carolina join the prohibition column before the next general primary? Is a question that is giving many public thinkers deep concern. We cannot see how in good faith the coming session of the legislature can enact a prohibition law. The issue of last year was local option, and it won't; to convert it now into prohibition without consulting the voters would not injure judgment be the proper thing to do.

The present administration is committed to local option, there is no getting away from that proposition, and unless the people in the various counties by an actual ballot reverse themselves, local option should stand and let the question be argued on the hustings next summer before the people. If by a majority vote prohibition is carried it will be enacted into law, and all good citizens whether it meets with their approval or not will submit and aid in its enforcement, but if the legislature should enact a prohibition law, when it is committed to local option, the local optionists will feel they have been bamboozled, and they will stand aside, leaving the enforcement of the law entirely with the prohibitionists, a condition which ought not exist, but such will be the result if the prohibitionists flushed with success run rough shod over those who favor temperance reform but differ somewhat as to the best means of accomplishing the desired end.

## ROOSEVELT NOT A CANDIDATE.

The Democratic press would have President Roosevelt to announce every morning that he will not be a candidate for re-election, and nothing short of such frequent declarations will satisfy them. The President on the night of his last election, declared he has never stood for re-election and has never since indicated a change of mind. True, he is the most popular man with the masses in the United States, and we have no doubt if he did change his mind and yield to the wishes of his party, he would get the nomination without a struggle, but we doubt exceedingly if he could be elected. President Roosevelt will, when his present term expires, serve two terms, and the American people have always been opposed to any one have the presidency for three consecutive terms. President Grant was the idol of his party but they refused to give him the third nomination; times have changed however, conditions are altogether different now from what they were in Grant's time, and it is possible for the Republican party to force the nomination upon Theodore Roosevelt whether he wants it or not. In our opinion the President has had enough of the presidency, and he will at the end of this term gladly retire. We have no slightest doubt he was sincere in his declaration that he will not be a candidate or re-election.

Bring Your Job Work to The Times Office.

What will the Democratic press say now that William Jennings Bryan spent some time at the white house recently in conference with President Roosevelt?

The question has often been asked, "who is South Carolina's other Senator?" The answer has been found. He is the man who suggested to President Roosevelt and Secretary Crotelyou how to fish the country out of the mire of despondency. We have been hearing all along that our junior Senator "had a nose" for finance, but who would have thought that President Roosevelt would have waited to hear from Senator Latimer before acting.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful, and acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Governor Ansel should order the Attorney General to apply the injunction method to sports indulging in that species of gambling called wrestling. The gamblers who bet on faro and craps have been run out from their usual haunts, but a new game of wrestling goes merrily on at the Columbia opera house, within a stone's throw of our injunction-administration windows, and nothing is said or done about it. Why?

There is nothing better for stomach troubles than Kodol which contains the same juices found in a healthy stomach. Kodol is offered on a guaranteed plan for the relief of heartburn, flatulence, sour stomach, belching of gas, nausea, and all stomach troubles. At times when you don't feel just right when you are drowsy after meals and your head aches or when you have no ambition, and you are across and irritable take a little Kodol. It digests what you eat. It will make you healthy. Sold by W. E. Brown & Co.

Senator Tillman gives it as his opinion that Secretary Cortelyou had no right to issue treasury certificates. He says the Act permitting such issues refers to times of war only. The Senator may be correct in this, but all the same Secretary Cortelyou's views meet with popular approval. The emergency condition is upon the country now, and if the vernment has it in its power to give relief the people want it, and will not complain if the authorities stretch the law some to meet the emergency.

Blotches, pimples, coarse pores, blackheads are unsightly and denote impure blood. Hollister's Rocky Mountain Tea, 30cents, Tea or Tablets. Dr. W. E. Brown & Co.

The State authorities have reached the conclusion that a law not backed by public sentiment cannot be enforced properly, and therefore they have decided to ask the Legislature to repeal the income tax law. If the State authorities would wake up to the idea that no law without a consenting public can be properly enforced, a different condition would exist in several counties of this State today, and the authorities would not now be occupying the position of doing that which it denounced in others—resorting to "government by injunction" to enforce a minor law.

It is healthful, wholesome, it's as good for one as the other. A little dose will make you sleep and eat. Makes people happy. Hollister's Rocky Mountain Tea, 30cents, Tea or Tablets. Dr. W. E. Brown & Co.

It is claimed that the National Farmers Union claim to have in the various warehouses at this time about 8,000,000 bales of cotton, and that it can hold this cotton until January 1st without distress to the farmers. We fear the Farmers Union is making a claim which will not bear the light of investigation. If an organization had 8,000,000 bales of cotton withdrawn from market the price would be double what it is now. The demand would run rough shod over the speculators and create the price. The great trouble has always been with farmers organizations that they put forward a loud-mouthed leadership which mistake bluffing for business.

The Charleston gala week is over, and nobody was trampled to death "by the seething mass of humanity" that did not through the streets night nor day during the festivities. It was a great show, and should have been because it was the same as last year, and the year before, and in fact for several years past. The constant practice of giving the same thing year after year, gives it a delightful sameness, and too, it saves the printing of programs. The only thing about Charleston's gala week that attracted general attention, was the great trades display, the people went into ecstasies over the number of unwashed grocery, bread and milk wagons in the parade. It was a great pageant.

The feeling in Charleston since the injunction screws have been applied to that city is not very cordial towards the present administration. One former very enthusiastic supporter of the present governor expressed his pent up indignation thus. "We tout Ansel von Scherman like his people before him, but he don't von Scherman don't it, he vos von tam touchman ain't it. Let him run for dot Zenate und ve vill dake Chim Hogan der dederictive und beat Ansel to a stand-schill don't you see. We voud radder hav Chim Hogan der irszman who vos a good friende und vo Scherman's peoples can a tam touchman who make us a lot of schmilles und voollshnees about being Scherman to get our votes. Let him run for dot Zenate ve fix u.n. Ven Ansel come mit Scherleston vonce more son poidy should hit u.n mit der face mit a limgurper schere. Dot's wat."

## Big Doings in Salem.

Notwithstanding the extremely wet weather the past week the farmers have been successful in sowing their oats and a number of them are now amusing themselves in pursuit of the festive partridge while waiting for the price of cotton to climb to life.

A great many of us have our cotton stored away and are determined to "stand pat" despite the financial stringency until a better price is offered.

The new Salem and Manning road being built up of solid clay becomes very slippery after a rain which causes us to wonder if it would be possible for our road supervisors to have the track sanded just previous to the bazaar.

The people here have their shoulders to the wheel and are showing with a herculean push to make our three day bazaar a howling success.

We are to have various attractions, such as horse races, shooting, side shows and concerts. A good many business houses have sent us articles of merchandise which will be sold at auction and the visitors will have an opportunity to make profitable purchases aside from the pleasure we are endeavoring to give all.

Mr. L. B. McFaddin's new home is just completed and he will in a short while be numbered among the dwellers in the new Manning road.

Mr. Frank McFaddin, though unmarried, will commence a new residence in a few days. Has also installed a new piano in his parlor. We suspect there will be something doing on the board walk.

Mr. William Millsap is back home from a visit with Mr. Hugh McFaddin. He claims to have killed all the birds in that neck of woods. We do know that William can play ball.

Mr. Mood Wheeler has given up his position in Manning to come home and entertain one, we hope that his troubles will be little ones.

Mr. Otis Player is at home for a few days to take in the bazaar. N. Y. Z.

The finest Coffee substitute ever made has recently been produced by Dr. Shoop of Racine Wis. You don't have to boil it twenty or thirty minutes "made in a minute," says the doctor. "Health coffee" is really the closest coffee imitation ever yet produced. Not a grain of real coffee in it either, and all stomach troubles, such as pure, malted cereals or grains, with malt, nuts, etc., really it would fool an expert—were he to unknowingly drink it for coffee. ## HOME MISSIONS.

## MANNING AUXILIARY

Because Christ commanded them when he said: Ye shall be witnesses unto me both in Jerusalem, and in all Judea, and in Samaria, and unto the uttermost part of the earth.

Because we are directly concerned in home affairs. The weal or woe of our country makes for righteousness or iniquity, and this shapes the destiny of our children. The early churches of Asia Minor, and Africa, fell away from Christ and it is possible for the United States to revert to barbarism unless a holy zeal for the salvation of every citizen moves our hearts.

Because here in the South as everywhere else, the need which Christ intends this command to meet is very great. There are some of the conditions among us which Christ's brethren must meet or be found disloyal to their Lord. A rapid increase of wealth, creating new class lines, forming a large and increasingly independent class of wage earners in the cities. These people are cut off by hours of work, piece of residence, lack of intercourse and sympathy, from the growing "leisure class" their church and their religion.

The rift is not very deep, but it is there and it is growing. Nothing can bridge it but the love of God and the love of man lives and service, the rapid influx of foreigners brings a new responsibility. Italians, Cubans, Hungarians, Bohemians, for the most part from the poorest, most ignorant classes, are found by the thousands in Texas, West Virginia, Louisiana, Florida and elsewhere.

With the completion of the Panama Canal, tens of thousands will be drawn thither, and we are to be confronted with people bringing debased forms of religion, if any at all, and ignorance and superstition, and a human lives and service, the rapid influx of foreigners brings a new responsibility.

Eight million negroes, God's special trust to us, an inheritance from our fathers and mothers, who raised these people by the help of God, from a state of savagery to the level whereon they stand today and in Christ's name ask that we do our part as our fathers did theirs.

Our mountain people, of as good blood as any in the world, await the broadening of their opportunities, that culture of mind and heart which will bring them to a high and noble service of the King of whom many of them have but dimly heard. We need home missions for our own souls sake, sending is not enough, it is when we go as Christ went to those within reach of our own feet, and hands, and voice, that we find our Lord's present Friend and companion and drink deeper of the love that passes knowledge, he is serving our poor brothers in wretched hovels, numberless and near at hand; and if we will join Him in this service, we shall find Him there, and every novel will seem unto us His palace. Amen.—Selected.

You cannot be well if you have a unhealthy tired out stomach neither can you feel good if by some little irregularity in eating you have caused the stomach to get out of order. The little stomach troubles are signs of indigestion, which may and very often does turn into a bad case of dyspepsia, don't allow this to go on a day without doing something to overcome it take some good, reliable and safe digestant like Kodol for dyspepsia it is the best remedy known to-day for heartburn, belching and all troubles arising from a disordered digestion. ## The Grave will be Marked.

Editor The Manning Times:

I saw in your last week's paper where one of your correspondents said something about Capt. Skinner's grave. About four years ago I decided to take up a subscription and raise \$50 but met with very poor encouragement and only got \$19.00, \$9.00 in cash and since that time R. F. Jenkinson of Pinewood, H. J. McLeod of Paxville and Anthony White of Sumter all passed away all three old comrades who agreed to pay me \$1.00 each. So that only leaves \$7.00 on subscription, which I hope to collect soon, and put a \$16.00 tomb to his grave. Richard M. Skinner was captain of company H. 5th, S. C. cavalry Butler's brigade, he was an upright Christian man good commander and brave soldier and fell on the battle field in Virginia in 1864.

Respectfully,  
B. L. BROADWAY.
